1. PARD/PDP: This development is within the boundaries of Park Planning District 4; the Neighborhood & Community Park Dedication Policy applies. There is a required \$1,393.58 due for each single-family residential unit or duplex on an undeveloped lot. On a lot with a teardown, there is a required \$1,393.58 due for each additional residential unit (duplex). Please upload the demolition/razing permit. Tear down and replace in-kind, no PARD-PDP fee is due. Call Development Services @ 817-392-2222, if you need assistance on making a payment. Call Lori Gordon @ 817-392-5743 for information regarding the fee and to what it is applied. All fees must be paid in full for single family residential or duplex, at or before building permit issue. No city permits will be issued until the PDP fees have been paid.

** General Notes **

NOTE: The general notes listed below are an abbreviated version of the actual notes in the 2021 IRC and CFW Amendment. The builder is responsible for compliance with the full applicable IRC section and/or CFW Amendment.

This Plan is void without City Plan Review Notes.

1. See attached examiner's notes and City handouts as applicable to this permit.
2. See attached site and construction plans as applicable to permit.
3. All work shall conform to City of Fort Worth building code, energy code and zoning requirements.
4. SEPARATE PERMITS ARE REQUIRED for Electrical, Mechanical and Plumbing work.
5. R302.6 Dwelling/garage fire separation.

SEPARATION MATERIAL

Planning Development Department

Residential New Building Permit Plan Review Comments

From the residence and attics: Not less than 1/2-inch gypsum board or equivalent applied to the garage side

From all habitable rooms above the garage: Not less than 5/8-inch Type X gypsum board or equivalent

6. R302.11 Fireblocking.

In combustible construction, fireblocking shall be provided to cut off all concealed draft openings (both vertical and horizontal) and to form an effective fire barrier between stories, and between a top story and the roof space.

7. BATHROOMS – R303.3 Bathrooms, water closet compartments and other similar rooms shall be provided with aggregate glazing area in windows of not less than 3 square feet, one-half of which must be openable. Artificial light and mechanical ventilation may be provided.

8. EMERGENCY ESCAPE – R310 – basements, habitable attics and each sleeping room shall have at least one operable emergency and rescue opening.

R310.2.1 – All emergency escape and rescue openings shall have a minimum net clear opening of 5.7 sq.ft. Openings on grade shall be a minimum of 5 sq.ft. net clear opening.

R310.2.1 – Minimum opening height is 24"

R310.2.1 – Minimum opening width is 20"

R310.1.1 – Emergency escape and rescue openings shall be operational from the inside of the room without the use of keys, tools or special knowledge.

9. MEANS OF EGRESS – R311

R311.6 – Minimum hallway width shall not be less than 36"

R311.2 – Each dwelling unit shall have not less than one exit door

10. SECTION R315 CARBON MONOXIDE ALARMS

R315.2.1 Carbon monoxide alarms and R315.3 Location. For new construction, an approved carbon monoxide alarm shall be installed outside of each separate sleeping area in the immediate vicinity of the bedrooms in dwelling units within which fuel-fired appliances are installed and in dwelling units that have attached garages.

11. WATER HEATERS: M2005.2 – Fuel fired water heaters shall not be installed in a room used as a storage closet.

12. CLOTHES DRYER EXHAUST: 2021 IRC M1502 – Dryer exhaust systems shall be independent of all other systems, and shall terminate on the outside of the building. Exhaust ducts shall be equipped with a backdraft damper.

13. M1502.4.5.1 SPECIFIED LENGTH – The maximum length of a clothes dryer exhaust

duct shall not exceed 35 feet from the connection to the transition duct from the dryer to the outlet terminal.- The maximum length of the duct shall be reduced 2.5 feet for every 45 degree bend and 5 feet for each 90 degree bend.

1 & 2 FAMILY ELECTRICAL

14. RECEPTACLE OUTLETS – Receptacles shall be installed so that no point measured horizontally along the floor line in any wall space is more than 6 feet from a receptacle outlet (E3901.2.1).

15. COUNTERTOP RECEPTACLES - E3901.4.1 Wall countertop space. A receptacle outlet shall be installed at each wall countertop space 12 inches (305 mm) or wider. Receptacle outlets shall be installed so that no point along the wall line is more than 24 inches (610 mm), measured horizontally from a receptacle outlet in that space.

16. E3901.4.2 Island countertop spaces. At least one receptacle outlet shall be installed at each island countertop space.

17. E3901.4.3 Peninsular countertop space. At least one receptacle outlet shall be installed at each peninsular countertop.

18. E3901.4.4 Separate spaces. Countertop spaces separated by range tops, refrigerators, or sinks shall be considered as separate countertop spaces

19. GFI CIRCUITS

20. 210.52 (G) At least one receptacle outlet, in addition to those for specific equipment, shall be installed in each basement, in each attached garage, and in each detached garage with electric power.

21. Arc-Fault Circuit Interrupter Protection 2023 NEC 210.12(A)

All 120 volt, single phase, 15 and 20 ampere branch circuits supplying outlets installed in dwelling unit family rooms, dining rooms, living rooms, parlors, libraries, dens, bedrooms, sunrooms, recreation rooms, closets, hallways or similar rooms or areas shall be protected by a listed arc-fault circuit interrupter, combination type, installed to provide protection of the branch circuit.

22. Heating, Air-Conditioning and Refrigeration Equipment Outlet – 2023 NEC 210.63 A 125-volt, single-phase, 15 or 20 ampere rated receptacle outlet shall be installed at an accessible location for the servicing of heating, air-conditioning and refrigeration equipment. The receptacle shall be located on the same level and within 25 feet of the heating, air-conditioning and refrigeration equipment.+

23. Luminaries in Clothes Closet: Luminary Types and location must comply with 2023 NEC 410.16

24. Electricity will not be released until Transportation & Public Works (TPW) has approved sidewalk and drive approach inspections

1 Zoning Plan Review Performed On: 10/08/2025

By: Rosalee Rivera – 817-392-2429 – rosalee.rivera@fortworthtexas.gov

Permit #: PB25-13585

Physical Address: 3401 Race St

Legal Description: COLONIAL RACE ADDITION – Block 1 – Lot 1

Plat: FS-25-016 – replat from one lot to two individual lots 1 & 2

Scope of project: New SFR

HOLD NOTES: All items labeled “HOLD” must be addressed. Additional HOLDS may be placed upon review of revisions.

Zoning district: A.75

Overlays: N/A

Minimum Lot Size: 7500 sq ft minimum; 11, 984 sf / Per replat

Building Square Footage: 2694 sf.

Lot Width: 55 sq ft minimum at build line; 60.95'

Lot Coverage: 45% Maximum; 22%

Front yard driveway coverage: 50% maximum – Provided: 30%

Monotony: custom home unique to the block

Trees: Provided two tree location within front yard

No. of bedrooms: 4

Parking spaces required: 3

* § 6.101 YARDS.

(4) The front yard setback shall be measured from the front property line to the main wall of the structure. An open porch or patio that has a vertical roof support may not be set closer than 15 feet from the front property line on a local street and ten feet on a limited local street.

Front Yard: 20 feet minimum (local streets) 15 feet minimum (limited local streets);

Planning Development Department

Residential New Building Permit Plan Review Comments

Provided: 20' setback per adjacent home setback

Plat has a build line of 20'

Rear Yard: 5' minimum; 106.8'

*Side Yard: 5' minimum; 12.11'L & 9'R

Interior Lot: 10 feet minimum adjacent to side street – N/A

**Corner lot: 5 feet minimum for interior lot line; 10 feet minimum for side yard: Provided:
N/A

Height: 35' maximum; 27.5'

* § 6.101 YARDS.

(3) Setback requirement. The setback requirement shall apply to the entire front, side or rear yard and shall not be limited to the portion of the property that is directly across the street from a residential district. The setback requirement shall extend through the entire block face.

(d) Front yard setbacks.

(1) The front yard setback in residential districts shall be the greatest of:

- a. The platted building line;
- b. The setback for the applicable zoning district; or
- c. The setback of the nearest building on either side that is the closest to the street, up to a maximum setback of 50 feet, provided that said setback is not the result of a variance granted by the board of adjustment. This requirement is applicable only if homes have been constructed on at least 40% of the lots within the block face. This requirement does not apply to properties within a cul-de-sac.

Where 60% of the existing block face has been built such that the setbacks of existing structures are less than the minimum required setback, an infill structure may be constructed consistent with the setback of the nearest building on either side that is closest to the street, regardless of whether said setback is the result of a variance granted by the board of adjustment.

(f) Projected front yard setbacks.

(1) Corner lot.

- a. Where a corner lot abuts on the side of a lot facing the other intersecting street, there shall be a side yard on the corner lot equal to the front yard required on the lot adjacent to the rear of the corner lot or separated only by an alley.
- b. Where a corner lot abuts the rear of a lot with a greater side yard setback, there shall be a side yard on the corner lot equal to the side yard required on the lot that abuts to the rear of the corner lot or separated only by an alley.

(e) Through lots. If the rear frontage of a through lot is on an arterial or wider street, the rear yard setback standards for the applicable district apply. If the rear frontage of a through lot is located on a local or collector street, the front yard setback standards of the

Residential New Building Permit Plan Review Comments

applicable district shall apply.

- (f) Projected front yard setbacks.
(1) Corner lot.

- a. Where a corner lot abuts on the side of a lot facing the other intersecting street, there shall be a side yard on the corner lot equal to the front yard required on the lot adjacent to the rear of the corner lot or separated only by an alley.
- b. Where a corner lot abuts the rear of a lot with a greater side yard setback, there shall be a side yard on the corner lot equal to the side yard required on the lot that abuts to the rear of the corner lot or separated only by an alley.

Parking Spaces Section 4.705.D.2 Single Family Home:

Two (2) spaces located behind the front building wall for dwelling units with three (3) or fewer bedrooms, plus one (1) space located behind the front building wall or in the driveway for each bedroom above three (3). Required parking spaces must be hard surface and dust free (asphalt or concrete). All maneuvering space must be located off of the public right of way.

§ 6.202 PARKING LOT DESIGN STANDARDS.

(7) No parking for one- and two-family uses shall be permitted within the front yard, as measured between the front property line and the closest location on the structure, other than as provided on the driveway. Driveway coverage, including ribbon drives, shall not exceed 50% of the front yard, and any additional parking on the property shall be provided on the driveway. Circular drives shall not exceed 65% maximum coverage. Parking pads are permitted if they are attached to the primary driveway and constructed of the same material, and shall be included in the calculation of driveway coverage.

Any detached single-family residential dwelling constructed after the effective date of this ordinance April 26, 2007 shall be required to conform to the following architectural and tree planting requirements:

An infill house shall be required to have a minimum 3" caliper front yard tree of choice, and one minimum 3" caliper street parkway tree as approved by the City Forester. In all instances, a minimum of 40% canopy cover per lot must be achieved in accordance with Section 6.302.D.

Monotony: The same elevation shall not be permitted within a six-lot pattern, on an adjacent lot or on a lot directly across the street as depicted in the diagram below.

No attached garage facing a public or private street may project greater than eight (8) feet in front of the front wall of the house in all Single-Family Districts.

If your construction project includes alley access or paving in public right of way please email or call WPD@fortworthtx.gov, 817-392-8428, so that the Water Department can determine if any public water or sewer mains will be paved over. Any identified public mains that the Water Department determines need to be replaced will be scheduled for rehab by the Water Dept. before paving activity can commence. This time line varies so it is critical that the assessment occurs as soon as possible to avoid delaying your project.

Any paving over public water or sewer mains will require a review by the Water Department to identify conflicts or encroachments. Exhibits must be drawn to scale, show cross streets, lot boundaries, address and legal description, easements, dimensioning and

Planning Development Department

profile.

Alley will need to be paved from the farthest property line to the nearest street or existing alley paving if it is to be used as access.

A parkway permit is required for all new construction projects for sidewalk(s), if not currently existing.

Sec. 22-176. Curb cuts and laid-down curb permit procedures.

The location of ingress and egress driveways shall be subject to approval of the city traffic engineer under curb cut or laid-down curb permit procedures. Driveways shall not exceed sixty-five (65) per cent of the property frontage. There shall be a minimum of twenty (20) feet of curb along the street between driveways where there is more than one driveway on property under unified ownership or control and used as one premise. The decision of the city traffic engineer may be appealed to the city council.
