1. PARD/PDP: Correction Required to invoice PDP fee for one (1) unit only. 3NOV2025 /~GJ

PARD/PDP: This development is within the boundaries of Park Planning District 4; the Neighborhood & Community Park Dedication Policy applies. There is a required \$1,393.58 due for each single-family residential unit or duplex on an undeveloped lot. On a lot with a teardown, there is a required \$1,393.58 due for each additional residential unit (duplex). Please upload the demolition/razing permit. Tear down and replace in-kind, no PARD-PDP fee is due. Call Development Services @ 817-392-2222, if you need assistance on making a payment. Call Lori Gordon @ 817-392-5743 for information regarding the fee and to what it is applied. All fees must be paid in full for single family residential or duplex, at or before building permit issue. No city permits will be issued until the PDP fees have been paid.

Residential New Building Permit Plan Review Comments

Front yard driveway coverage: 50% maximum; Provided: 22%

4.705(e)(7) ONE-FAMILY ("A-5") DISTRICT.
(Table)

(7) No parking for one- and two-family uses shall be permitted within the front yard, as measured between the front property line and the closest location on the structure, other than as provided on the driveway. Driveway coverage, including ribbon drives, shall not exceed 50% of the front yard, and any additional parking on the property shall be provided on the driveway. Circular drives shall not exceed 65% maximum coverage. Parking pads are permitted if they are attached to the primary driveway and constructed of the same material, and shall be included in the calculation of driveway coverage.

Monotony: Custom home unique to the block

Trees: Provided tree location in front area

Setback restrictions: (The front yard setback in residential districts shall be the greatest of: The platted building line; The setback for the applicable zoning district; or the setback of the nearest building on either side that is the closest to the street, up to a maximum setback of 50 feet, provided that said setback is not the result of a variance granted by the Board of Adjustment)

6.101(d)(2)

Front yard setbacks

(2) Where 60% of the existing block face has been built such that the setbacks of existing structures are less than the minimum required setback, an infill structure may be constructed consistent with the setback of the nearest building on either side that is closest to the street, regardless of whether said setback is the result of a variance granted by the board of adjustment.

Established Setbacks Provided – 15'

Front: 15' minimum – Provided: 20'

Interior Side Yard: 5' minimum – Provided: 5'L / 5'R

Rear: 5' minimum – Provided: 15.9'

No. of bedrooms: 3

Parking spaces required: 2

Parking spaces provided: 2 - // showing 36' side parking on left of the living area to accommodate 2 spaces, behind the main front wall which is bedroom 1

Residential New Building Permit Plan Review Comments

4.406(1)(e) TCU RESIDENTIAL ("TCU") OVERLAY DISTRICT.

(1) TCU residential overlay district. The TCU residential overlay district is designed as an overlay to the base zoning district. Property located within this zoning overlay must also be designated as being within one of the base zoning districts. Permitted uses must be allowed in both the base zoning district and the overlay district and must comply with height, yard, area and parking requirements of the base zoning district.

(e) Use restrictions. No more than three unrelated persons may occupy a single dwelling unit in the TCU residential overlay district unless the owner has registered as a nonconforming use by March 31, 2015. When counting the number of unrelated persons in a single dwelling unit, persons related by blood, marriage or adoption shall count as one unrelated person, provided all other persons shall each count as one unrelated person.

6.507.2 (c) ONE-FAMILY DWELLING UNIT DESIGN STANDARDS.

One-family dwellings must comply with the following standards.

Parking. Section 4.705.D.2 Single Family Home: (2) Parking. Two spaces located behind the front building wall for dwelling units with three or fewer bedrooms, plus one space located behind the front building wall or in the driveway for each bedroom above three. Required parking spaces must be hard surface and dust free (asphalt or concrete). All maneuvering space must be located off of the public right of way.

(a) Elevation. The intent of this subsection is to promote the health, safety, and general welfare of the City of Fort Worth and its citizens through the adoption and enforcement of one-family dwelling unit design standards that limit the effects of repetition and uniformity by requiring substantive variation and diversity in front elevations within a certain lot pattern. The elevations for one-family dwelling units within a six (6) lot pattern must be sufficiently differentiated from each other and from any one-family dwelling unit that is two (2) lots removed on either side of the subject property on the same side of the street, as generally depicted below and otherwise set forth herein.

(c) Attached garages. No attached garage facing a public or private street may project greater than eight feet in front of the front wall of the house in all single-family districts.

(7) Garage/carport. No more than one garage and one carport or porte cochere shall be allowed per residential unit on a single residential lot, unless the additional garages or porte cochères are an integral part of the main residential structure with the same roofline and driveway as the residential structure.

(8) Side and rear yard setbacks. The side and rear yard setback for detached garages located behind the rear wall of the house may be reduced to three feet. The side yard of an attached garage may be located within three feet of the property line when located a minimum of 18 feet back of the front wall of the house.

Planning Development Department

6.302(1) URBAN FORESTRY.

- (1) One- and two-family residential land uses.
 - a. Minimum retained or planted canopy coverage shall be 40%.
- (d) Infill house. An infill house shall be required to have one minimum three-inch caliper front yard tree of choice, and one minimum three-foot caliper street parkway tree as approved by the city forester. In all instances, a minimum of 40% canopy cover per lot must be achieved in accordance with § 6.302.

If your construction project includes alley access or paving in public right of way please email or call WPD@fortworthtx.gov, 817-392-8428, so that the Water Department can determine if any public water or sewer mains will be paved over. Any identified public mains that the Water Department determines need to be replaced will be scheduled for rehab by the Water Dept. before paving activity can commence. This time line varies so it is critical that the assessment occurs as soon as possible to avoid delaying your project. Any paving over public water or sewer mains will require a review by the Water Department to identify conflicts or encroachments. Exhibits must be drawn to scale, show cross streets, lot boundaries, address and legal description, easements, dimensioning and profile.

Alley will need to be paved from the farthest property line to the nearest street or existing alley paving if it is to be used as access.

A parkway permit is required for all new construction projects for sidewalk(s), if not currently existing.
